

AI / MARKETING SAAS

TESTIMONIAL ALCHEMIST

THE IDEA

WHAT IT IS

- An AI agent that ingests customer testimonials (text, audio, video) and auto-produces social-proof graphics, case studies, sales-deck slides, and quote reels – in the brand's voice.

REVENUE

\$300 / MO

\$3.6k
ARR per customer

TARGET

TARGET

- B2B SaaS marketing teams (20-200 ppl), DTC brands, boutique agencies serving both. ⏰ ⏰ ⏰

WHY IT WORKS

WHY IT WORKS

- Marketing teams record 100s of testimonials and use <5% of them.
- Social proof is the highest-ROI content category and still manual.
- One happy user -> infinite assets. Flywheel built-in. 💡

DOWNSIDERS

DOWNSIDERS

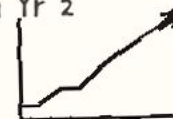

- Very noisy market (100+ AI content tools).
- Churn high without deep CRM/CMS integrations.
- Defensibility comes from distribution, not tech.

PROJECTIONS

PROJECTIONS

\$1.8M ARR

500 customers × \$300/mo in Yr 2

HOT TAKE

WEDGE: FREE TESTIMONIAL-COLLECTION BOT -> PAID ASSET FACTORY.

LOCAL SERVICES / LEGAL

CLEARSLATE ORM

THE IDEA

WHAT IT IS

- A pay-for-performance service that audits Google/Yelp/TripAdvisor profiles, identifies ToS-violating reviews, and files structured removal appeals. Clients pay only when a review is removed or suppressed.

REVENUE

\$500-1k / WIN

\$25k

MRR at ~50 wins / mo

TARGET

TARGET

- Restaurants, home-service SMBs, medical & dental practices, hotels, small law firms.

WHY IT WORKS

WHY IT WORKS

- SMBs hate monthly retainers that 'work on it' forever.
- Pay-for-performance destroys the trust barrier instantly.
- A Flippa comp is already doing \$25k/mo — proven playbook.

DOWNSIDERS

DOWNSIDERS

- Platform ToS risk — appeal routes can change or close.
- Legal minefield if done sloppily (defamation claims).
- Scaling wins requires tight ops + expert reviewers.

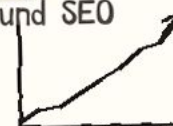

PROJECTIONS

PROJECTIONS

\$600k ARR

Yr 1 with 2 reviewers + inbound SEO

HOT TAKE

LEAD MAGNET: FREE 'TOS AUDIT' REPORT -> WARM PIPELINE AT \$0 CAC.

MARKETPLACE / HIRING

AGENTHIRE

THE IDEA

WHAT IT IS

- A two-sided marketplace connecting vetted AI-implementation specialists (Claude Code, MCP, eval engineers) with startups & SMBs that need AI deployed fast. 20% placement fee on all contracts.

REVENUE

20% PLACEMENT

\$500k

MRR @ 50 placements × \$50k

TARGET

TARGET

- Series A-C startups, PE-backed SMBs, mid-market enterprises with no internal AI capacity.

WHY IT WORKS

WHY IT WORKS

- Every SMB wants AI; none know who to hire.
- Generalist dev agencies overpromise + underdeliver.
- Vetting layer = repeat demand + durable margins.

Downsides

Downsides

- Two-sided cold-start is brutal – start one vertical.
- Quality control is reputational; one bad hire kills trust.
- Supply side commoditizes as Claude/Cursor skills spread.

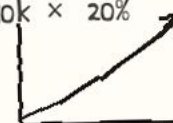

PROJECTIONS

PROJECTIONS

\$6M ARR

Yr 2 at 50 placements × \$50k × 20%

HOT TAKE

GO VERTICAL FIRST: 'AI ENGINEERS FOR DENTAL GROUPS' – THEN EXPAND.

CREATOR TOOLS / MEDIA

CLIPLINE

THE IDEA

WHAT IT IS

- A hybrid clipping platform + agency. SaaS auto-cuts podcasts, webinars, and long videos into captioned TikToks/Reels/Shorts. Agency tier posts + manages across creators' accounts with a clipper network.

REVENUE

HYBRID MODEL

\$2-5k
agency retainer / mo

TARGET

TARGET

- B2B founders, podcasters, course creators, coaches, small-to-mid DTC brands.

WHY IT WORKS

WHY IT WORKS

- Every founder/creator wants short-form; almost none make it.
- Clipper economy (Jellysmack-style) compounds distribution.
- Bundle SaaS + humans = SaaS margins with agency trust.

DOWNSIDERS

DOWNSIDERS

- AI clipping tools commoditizing fast (OpusClip, Vizard).
- Quality gap vs. top human editors still wide.
- Algorithm risk — a platform tweak kills economics.

PROJECTIONS

PROJECTIONS

\$4.5M ARR

100 agency + 1k SaaS in Yr 2

HOT TAKE

BUILD THE CLIPPER NETWORK ITSELF — THAT'S THE REAL MOAT.

AI AGENCY

CLAUDE OPS

THE IDEA

WHAT IT IS

- An agency that designs, builds, and maintains Claude Code / agent stacks for companies — custom subagents, skill packs, MCP integrations, evals, and a monthly retainer for upgrades.

REVENUE

\$10-50K SETUP

\$100k

MRR across 20 retained clients

TARGET

TARGET

- Series A-C startups, PE-owned SMB rollups, consulting firms wanting AI capability. 

WHY IT WORKS

WHY IT WORKS

- Claude Code + MCP adoption is vertical; most companies can't self-implement.
- White-space niche — agencies are still generalists.
- Retainer model survives model commoditization.

DOWNSIDERS

DOWNSIDERS

- Talent is scarce and expensive.
- Tech pace = constant rework and retraining.
- Margin squeeze as LLM capabilities subsume custom work.

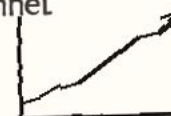

PROJECTIONS

PROJECTIONS

\$1.2M ARR

Yr 1; \$5M+ with partner channel

HOT TAKE

PUBLISH A PUBLIC 'CLAUDE CODE COOKBOOK' -> BEST SALES ENGINE.

LOCAL AI / LEAD GEN

POOLBUOY

THE IDEA

WHAT IT IS

- AI scans satellite imagery to identify empty pool-ready backyards, renders a photorealistic 'your pool here' visualization, and delivers the qualified homeowner lead + image to local pool contractors.

REVENUE

\$150-500 / LEAD

\$150k

MRR @ 50 territory licenses

TARGET

TARGET

- Local pool installers, landscape & hardscape contractors, outdoor-living companies.

WHY IT WORKS

WHY IT WORKS

- Pool installers pay brutal CPL for cold leads today.
- Satellite imagery + render cost ~pennies per household.
- Visualization dramatically lifts contractor close rate.

DOWNSIDERS

DOWNSIDERS

- Homeowner privacy / optics risk.
- Seasonality – winter is dead outside sunbelt.
- Regional TAM caps per territory.

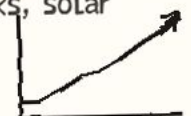

PROJECTIONS

PROJECTIONS

\$1.8M ARR

Yr 2 pools only; 5x w/ decks, solar

HOT TAKE

SAME PLAYBOOK WORKS FOR SOLAR, ROOFING, LANDSCAPING – HUGE EXPANSION.

EDUCATION / WORKSHOPS

ASSEMBLY

THE IDEA

WHAT IT IS

- In-person, vertical-specific AI training workshops (for lawyers, accountants, realtors, marketers, etc.). Every student leaves with 3 working automations tailored to their actual job.

REVENUE

\$2-5K / TICKET

\$240k

per month at 4 workshops

TARGET

TARGET

- Mid-career professionals, SMB owners, corporate L&D teams, professional-services partners.

WHY IT WORKS

WHY IT WORKS

- Online AI courses have <5% completion — IRL with deliverables wins.
- Vertical focus = outcomes > generic 'prompt engineering' classes.
- Corporate L&D budgets dwarf consumer CAC.

DOWNSIDERS

DOWNSIDERS

- Ops-heavy; scales like an agency, not software.
- Content ages fast — constant curriculum refresh.
- Instructor quality variance is the #1 risk.

PROJECTIONS

PROJECTIONS

\$2.8M ARR

+ \$500k sponsorship layer

HOT TAKE

ALUMNI COMMUNITY = RECURRING REVENUE + REFERRAL ENGINE.

ENTERPRISE AI / HR

RELOFLOW

THE IDEA

WHAT IT IS

- An AI concierge that manages visas, school placements, housing, movers, banking, and taxes for corporate relocations end-to-end — with human specialists for regulated edge cases.

REVENUE

\$5-15K / MOVE

\$10M

ARR @ 10 clients × 100 moves

TARGET

TARGET

- Global-mobility teams at Fortune 2000, fast-growth tech cos, BPOs, immigration-heavy industries.

WHY IT WORKS

WHY IT WORKS

- Legacy RMCs charge \$15-30k / move with manual workflows.
- Employees hate the current experience; NPS is abysmal.
- AI owns the paperwork; humans own the judgment calls.

DOWNSIDERS

DOWNSIDERS

- Long enterprise sales cycles (6-12 mo).
- Per-country regulatory complexity never stops.
- Service quality = reputational blast radius.

PROJECTIONS

PROJECTIONS

\$10M ARR

Yr 3 at 1,000 moves / yr

HOT TAKE

START WITH ONE HIGH-VOLUME CORRIDOR (INDIA -> US TECH) AS WEDGE.

CRO / GROWTH SAAS

CLICKWARD

THE IDEA

WHAT IT IS

- An AI platform that continuously generates landing-page variants, runs A/B tests, picks the winner, and ships it live — no designer, analyst, or CRO consultant required.

REVENUE

\$99-\$2k / MO

\$150k

MRR @ 500 customers

TARGET

TARGET

- DTC ecom (\$1M-\$50M), Lead-gen B2B, agencies managing multi-client sites.

WHY IT WORKS

WHY IT WORKS

- CRO consultants cost \$15k+/mo; most SMB sites never A/B test.
- AI generates infinite variants at zero marginal cost.
- Revenue-share tier aligns with ecom outcomes ->infinite ceiling.

Downsides

Downsides

- Needs traffic for statistical significance.
- Incumbents (Optimizely, VWO) attacking the same space.
- Brand-voice risk on auto-generated copy.

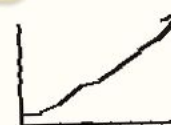

PROJECTIONS

PROJECTIONS

\$1.8M ARR

+ 2-3x from rev-share tier

HOT TAKE

SHOPIFY APP-STORE LISTING = BUILT-IN DISTRIBUTION ON DAY ONE

EDUCATION / CONSUMER

SPARKSCHOOL

THE IDEA

WHAT IT IS

- An AI-native learning platform for kids 6-16. Personalized 1:1 tutoring on school subjects PLUS 'AI fluency' programs — kids build their own agents, learn safe prompting, and ship real projects.

REVENUE

\$50-200 / MO

\$1M

MRR @ 10k families × \$100

TARGET

TARGET

- Tech-savvy parents of kids 6-16, homeschoolers, private-school supplementary buyers.

WHY IT WORKS

WHY IT WORKS

- Parents are terrified kids will be 'left behind' on AI.
- Schools are 3-5 yrs late; private market fills the gap.
- True 1:1 tutoring at software margins is finally possible.

DOWNSIDERS

DOWNSIDERS

- Trust bar with parents is enormous.
- Content moderation + COPPA compliance = hard mode.
- Screen-time backlash is real.

PROJECTIONS

PROJECTIONS

\$12M ARR

Yr 2 + school contracts

HOT TAKE

PARENT COMMUNITY + IRL 'AI BUILD NIGHTS' = RETENTION + MOAT.
